

NEW CHURCH

**BETHLEHEM
UNITED CHURCH
OF CHRIST**

KIEL, WI

After much deliberation, the Bethlehem United Church of Christ elected to leave their long-time home, which had become undersized and outdated, for a new church home on an adjacent parcel.

The new building provides room to grow in a welcoming and efficient new structure, with all spaces on a common, accessible level. The old steeple relocated to the new church allows the congregation to recall the past while looking toward the future.

Project Stats:

- New church in the Kiel area
- 11,231 square feet
- \$1.2 Million
- Completed Spring of 2006
