

# SINGLE FAMILY HOME

## DOOR COUNTY COTTAGE

SISTER BAY, WI

This home, located in scenic Door County, Wisconsin, is a completely custom-designed residence. The design takes advantage of the picturesque views of Green Bay which the lot is adjacent to. The first floor has a custom kitchen and offers gorgeous views of the bay from the large living and dining area, as well as from the master suite. The second level has the other three bedrooms, also with photographic views. Above the large garage is a custom kid's playroom for the client's grandchildren. Since the property has it's own boat landing, an overhead door on the bayside of the garage makes boat storage a breeze. The wide wrap-around porch is the perfect place to watch the sunset over the water at the end of the day.

### Project Stats:

- 4,636 square feet
- Completed Fall of 2006
- 4 bedrooms, 4 bathrooms

**Contractor:** Van's Lumber
