# ELEMENTARY/MIDDLE SCHOOL

OOSTBURG  
CHRISTIAN SCHOOL

OOSTBURG, WI

Oostburg Christian School is a small private school located just off of Main Street in Oostburg. We were asked to design a new entry lobby, front office, public restrooms, and gymnasium.

**Project Stats:**

- 10,900 square feet
- 1 story
- \$1.4 Million
- Construction completed in 2005
- Project included new entry canopy, lobby, front office, restrooms, health room, and gymnasium

The original entrance was tucked back in a corner and not very inviting. The goal was to make the new entry much more inviting and visible. As you walk thru the doors you enter a large two-story lobby with clerestory windows. This lets a large amount of sunlight in during the day and adds a bright feeling to this interior space. Off of the lobby to the right is the main office. Large windows into the lobby help the staff maintain visual control over visitors entering the school.

**Client:** Oostburg Christian School  
Bob Adams  
920-564-2664

**Contractor:** Field Tree Construction  
Management  
Gordon Veldboom  
920-564-3341

Off the new lobby is the gymnasium. The gym is equipped with new power bleachers with school initials, two cross courts, and a beautiful hardwood maple floor.
