

**OOSTBURG STATE
BANK**

CEDAR GROVE, WI

The Cedar Grove office of Oostburg State Bank is the first satellite office venture for this well-established institution. The owner requested that the new office be aesthetically related to the current bank headquarters, to reinforce their “brand.” This resulted in the existing building influencing some design and material selection decisions, while still allowing the new building to have it’s own distinct personality.

The building occupies a prominent main street location and is configured for high visibility and efficient traffic circulation. The bank provides all of the facilities necessary for modern lobby and drive-up banking services, in a comfortable and inviting environment.

Project Stats:

- New bank office for Oostburg State Bank in Cedar Grove, WI
