## PIZZA RANCH

WAUPUN, WI

The Waupun Pizza Ranch is located in an existing strip mall. The tenant space that was renovated had been a grocery store—quite a bit larger than the standard Pizza Ranch footprint—so there are a number of things in this space that you would not normally find in a Pizza Ranch. The space was split in two by a large load-bearing brick wall that needed to be incorporated into the new design.

On one side of the wall is the main dining area and buffet, consisting of a very low ceiling in half of the space. We used a number of different design ideas to break up the ceiling and create some architectural interest. One such element is shown above.

On the other side there are three party rooms, a 6,000-square-foot kids' game area, an ice cream parlor and a basketball court. One of the party rooms is shown at left. In the kids' game area we left the steel structure exposed and painted it black. This, along with some fun lighting, makes the space feel even larger.

### Project Stats:

- Renovated an existing grocery store into a new restaurant.
- 10,494 square feet
- \$250,000 without furniture & equipment
- Completed Spring of 2007
