

JEWELRY STORE

**RUMMELE'S
FINE JEWELRY**

MANITOWOC, WI

This unique renovation project was to create a jewelry store out of an old Fazoli's restaurant in Manitowoc, WI. We designed minor renovations to the exterior, but the main work was interior. The former kitchen became a back workroom, storage and office. The main retail space was designed with the jewelry display cases in mind. Drywall soffits in contrasting paint colors mimic the display cases below, as does the flooring change from porcelain tile to carpet. These details make this retail space special and unique, while maintaining emphasis on the fine jewelry.

Project Stats:

- Renovated a restaurant into a retail jewelry store
- 3,304 square feet
- Completed December of 2006
