

SINGLE FAMILY HOME

SCHROEDER RESIDENCE

SCHOOL HILL, WI

This is a completely custom-designed home for Carl and Debbie Schroeder. It is located on a large rural lot in School Hill, WI. The design concept for this home was to create a home and a garage that are linked together. The garage is designed to look like a barn, while the house has a Georgian feel, reminiscent of an old farmhouse. The floor plan evolved from there, with the “link” housing the master suite and kitchen.

The kitchen is open to the main house which has a two-story great room, dining room, craft room and the other two bedrooms and bathroom. An arched corridor spans the length of the house, tying the pieces together. The large porch spans three sides of the house. There is also an exposed basement in the back.

Project Stats:

- 2,800 square feet
- Completed Spring of 2007
- 3 Bedrooms, 2-1/2 Baths
