

CAR WASH

TOWER CAR WASH

SHEBOYGAN, WI

The Tower Car Wash is probably one of the nicest car washes you will ever see. It is located on the busiest intersection in Sheboygan, the corner of Erie Avenue and 14th Street. One of the main goals that was assigned to Abacus Architects, Inc. by the owner was the request for the building to be a landmark; we succeeded in doing this. In fact, this building won an award from the Wisconsin Concrete Masonry Association in 2006 for "Excellence in Masonry".

One of the challenges Abacus was faced with was how to get a car wash with three fully automated bays to work on such a small site. Our in-house civil engineering staff was able to work with the owner and the city to not only make this work, but due to the prominence of the site, make it look great.

Project Stats:

- New Karcher Car Wash in Sheboygan
- 2,853 square feet
- \$160,000
- Completed March, 2005
