

**BELLIN MEDICAL  
CLINIC**

SEYMOUR, WI

This new facility is located on the outskirts of Seymour, a small rural town in east-central Wisconsin. We used a lot of masonry, earth tones, and landscaping so that the building would blend in with the rural setting.

The facility houses six exam rooms, four procedure rooms, an x-ray suite, two conference rooms, a classroom, staff lounge, and therapy rooms. The large waiting room with tray ceiling provides a warm greeting for patients entering the building. The large canopy allows patients to be dropped off out of the weather as well as add some interest to the front façade of the building.

**Project Stats:**

- New Facility
- 6,854 sq. ft.
- \$621,000
- Completed Summer of 2005
